HOSPITALIZATION

In the event of hospitalization, the member should contact the number indicated on the card, which varies according to the country, to be directed to an establishment accredited by IMA/MGEN International, guaranteeing the quality of treatment, equipment, doctors, etc.

ALL COUNTRIES In accredited hospitals in the network

ÒJI INTERNATIONAL MEDICAL COVERAGE

■ Exemption from advance payments

- Coverage of 100% of actual expenses, up to the maximum limit for hospitalization

- Maximum limit per hospitalization: €150,000

IMA, via its doctors, checks the diagnosis, the relevance of the envisaged treatment in view of the diagnosis, negotiates the quote for the treatment, then pays the invoice directly to the hospital.

In the event of an accident on public roads and transfer by the emergency services to an establishment which is not part of the IMA/MGEN INTERNATIONAL network, IMA will contact the hospital, verify the quality and safety of the establishment, have the diagnosis communicated, verify the envisaged treatment, and negotiate the quotation for treatment.

- If the quality of the hospital is deemed insufficient, IMA will arrange transfer to an establishment within its network. IMA will cover the bill for the first establishment, for the transfer costs, and then for the network establishment.
- If the hospital refuses to apply the rates which IMA obtains within its network and if the patient's condition allows, IMA will arrange transfer to an establishment within its network.
- If the rates and the quality of treatment are similar to an establishment within its network, the patient will remain in the establishment, IMA will arrange direct payment, to the hospital and the patient will not have to pay any charges up front.

ALL COUNTRIES Outside a hospital establishment in the network, as a result of the deliberate choice of the member (excluding emergency transfer)

ÒJI INTERNATIONAL MEDICAL COVERAGE

- No cover by IMA is possible, and therefore no medical check or payment by IMA. Members must make the entire payment to the establishment, then arrange reimbursement through their standard system*, then by MGEN
- Coverage of 70% of actual expenses, up to the maximum limit per hospitalization: €75,000

* Compulsory Social Security Health Coverage or Basic Social Coverage: Student Social Security Centre, CPAM, etc.

The following are considered as outpatient treatment:

- surgical procedures performed under anaesthetic
- endoscopic explorations under anaesthetic
- special injectable treatments (chemotherapy, dialysis, etc.)

Treatments performed in a hospital but which could have been performed by a primary care practitioner are covered under the Routine Healthcare guarantee (see pages 3 and 4).

SUBROGATION

IMA ASSURANCES is subrogated for the amount of the cost of the assistance granted, in terms of the entitlements and legal action of the beneficiary in respect of third parties who, by their actions, have caused the damage giving rise to the coverage by IMA ASSURANCES; this means that IMA ASSURANCES may bring legal proceedings against the responsible party instead of and in place of the beneficiary, where it considers this to be appropriate.

LIMITATION

Any legal action resulting from the assistance agreement is subject to a two-year period of limitation as of the event which gives rise thereto.

However, this period shall commence:

- In the event of reticence, omission, false or inaccurate declaration regarding the risk incurred, only on the day on which IMA ASSURANCES became aware thereof
- In the event of a claim, only on the day on which the beneficiaries became aware thereof, where they can prove that they were hitherto unaware thereof

Where legal action brought by the beneficiaries against IMA ASSURANCES results from a third-party claim, the period of limitation only commences on the day on which this third party has brought legal proceedings against the beneficiaries or has been indemnified by the latter.

The limitation shall be interrupted by any of the standard causes of interruption of limitation:

- Clear recognition by IMA ASSURANCES of the guarantee entitlement of the beneficiaries
- Legal proceedings, even for interim measures
- Protective measures taken under the terms of the Code of Civil Procedures or an act of enforcement

Interruption of the limitation of the action may, in addition, result from the designation of assessors following a claim or the dispatch of a registered letter with acknowledgement of receipt sent by IMA ASSURANCES to the beneficiaries with regard to the action for payment of the premium, and by the beneficiaries to IMA ASSURANCES with regard to payment of the indemnity.

By way of derogation to Article 2254 of the Civil Code, IMA ASSURANCES and the beneficiaries may not, even by joint agreement, either modify the limitation period, or add to the causes of suspension or interruption thereof.
